Submit your Manchester, NH Tier II report:

Please go to the following website: http://tierII.manchesternh.gov/Tier2Manager/submit and then click the Register Now button. This will prompt you to enter your username, password and facility information. Once all fields are complete, click the Register button. An email will be sent to you approving your registration. Please record your username and password. You may log in and complete the report.

Once logged into the system, you will be able to update your Tier II report information. This system will provide your facility the ability to maintain your chemical data twenty-four hours a day, seven days a week.

The TIER II MANAGER™ reporting system will enable you to print a hard copy of your completed Tier II report after the electronic submission is complete. Print a copy for your own records. Please be advised that the City of Manchester no longer accepts hardcopy submissions. All federally-mandated Tier II information will be accepted by electronic submission only.

The Manchester Fire Department highly recommends that you keep your facility contact, emergency contact, and chemical information update to date. This information provides community first responders with the information that they need to prepare emergency response plans.
