

The City of Manchester Health Department is Encouraging ALL Residents to Get Tested for COVID-19

Public Health
Prevent. Promote. Protect.

The City of Manchester continues to experience community-wide transmission of COVID-19 in neighborhood businesses and the community at large.

As we reopen businesses and other recreation destinations in the city, it is even more important to do the following to stop the spread of the virus:

- ✓ ***Everyone should wear a cloth mask when they are outside of the home and in public.*** This is not a substitute for social/physical distancing and other prevention measures. You still need to stay at least 6 feet away from people, even when wearing a face covering.
- ✓ ***Everyone should get tested for COVID-19.*** Many positive cases do not know that they have the virus. To protect yourself and your loved ones, you are encouraged to get tested.

The listing below provides several testing options in Manchester. Call the Manchester COVID-19 Hotline at **603-668-1547** to speak with a health professional for assistance.
