ADDENDUM #1

Vehicle Body for Mobile Dental Office FY17-230-12

Q1: Time Frame Delivery: We noted that there is a very aggressive timeframe for delivery (120 days after award). Is that timeframe based on grant funding/financial circumstances or any event type deadline? Please let us know as the industry has been very busy, and it can take 4-5 months just to get the chassis and body on grounds.

A1: *The delivery date is not the result of a funding deadline. It can be adjusted based on the proposer's timeline; however, a proposer's projected delivery date will be one of the considerations in the award process.*
