ADDENDUM NO. 1

February 19, 2020
Reclaiming
FY20-500-29

City of Manchester
Department of Public Works

The attention of all bidders submitting proposals for the above project is called to the following changes to the Contract Documents. The items set forth herein, whether for clarification, omission, addition or substitution are to be included in and shall form a part of the proposal submitted.

Bidders shall acknowledge receipt of this Addendum by writing “Addendum No. 1 Received” at the bottom of Page 15 of the Proposal.

Addendum Contents (4 pages)

- Addendum (this page and next page)
- Revised page 20 of Bid Proposal
- Supplemental Specification 632 - Reflectorized Pavement Markings

The following is a summary of questions/concerns that have been raised:

**Item 1**

Is there a pre-bid meeting for this Contract?

No.

**Item 2**

Are there plans for the proposed work or areas in the city to be addressed or worked on?

Release of plans at this time would be premature given the roadway repair plan for this upcoming construction season is still being finalized. We are yet to receive final verification from utilities that they are clear of the work areas. Quantities in the Bid Documents are an estimate of the work planned at time of advertisement. Work will be focused on main arteries and collector streets.
Item 3

Concerned with Item 632.6 - Temporary Raised Pavement Markings being bid as a lump sum number. No list of roadways was given making this difficult to provide accurate estimated cost.

The concern is understood. Unit of measure will be changed to linear foot (LF) for the installation of Temporary Raised Pavement Markers as outlined in Section 632, paragraph 3.6. The linear foot of roadway that the temporary markings are placed upon will be used as the measure for basis on payment. The bidder is directed to:

1. Remove page 21 from the bid package and replace with attached page 21
2. Add attached supplemental specification 632 to the bid package.

SUPPLEMENTAL SPECIFICATION

AMENDMENT TO SECTION 632 – REFLECTORIZED PAVEMENT MARKINGS

Replace:

Method of Measurement

4.7 Temporary raised plastic pavement markers shall be measured in lump sum. This will include all installation removal and replacement as needed.

Basis of Payment

5.11 Accepted quantities of temporary raised plastic pavement markers will be paid at the Contract lump sum price, which will constitute full compensation for all installation, removal and replacement of the markers as needed or directed by the Engineer.

Pay Items and Units, Section 632 — ReflectORIZED Pavement Markings:

6 Temporary Raised Plastic Pavement Markers Lump Sum

With:

Method of Measurement

4.7 Temporary pavement markings shall be measured by the linear foot of roadway they are placed upon. This will include installation, removal and replacement of Temporary Raised Plastic Pavement Markers (RPMs) and temporary marking tape as outlined in paragraph 3.6.

Basis of Payment

5.11 Accepted quantities of temporary pavement markers will be paid at the Contract price per linear foot, which will constitute full compensation for all installation, removal and replacement of the temporary pavement markings as needed or directed by the Engineer.

Pay Items and Units, Section 632 — ReflectORIZED Pavement Markings:

6 Temporary Pavement Markings Linear Foot
