## **Understanding the Pillars of Your Retirement Income**

Interest in the Pre-Retirement Seminar entitled “Understanding the Pillars of Your Retirement Income” scheduled for Tuesday, September 9th, took the Retirement System by surprise and enrollments quickly reached the capacity for the only meeting place available on that day. Upon hearing of this, the Retirement System’s Board of Trustees authorized a second session which will be held later this fall. Planning for these sessions can take weeks, so the exact date and location have yet to be determined. Nevertheless, the Retirement System is accepting calls from those who were interested in attending the September 9th seminar but were not able to do so because the session was full or because of scheduling constraints. Interested members are encouraged to call the Retirement System to have their names placed on a contact list. When the exact date and location of the second seminar has been determined, everyone on the list will be contacted to determine whether they would still like to attend.

**If you are interested in being place on the contact list, simply call the Retirement System at 624-6506 and ask to be placed on the notification list for the “Fall Pre-Retirement Session”.**
