## **Understanding the Pillars of Your Retirement Income**

Interest in the Pre-Retirement Seminar entitled “Understanding the Pillars of Your Retirement Income” held on Tuesday, September 9th, took the Retirement System by surprise and enrollments quickly reached the capacity for the only meeting place available on that day. The Retirement System’s Board of Trustees authorized a second session which is scheduled for Thursday, November 6th at the Puritan Conference Center and while many have already confirmed their reservation on that day, there are still openings available. The Retirement System is now accepting calls from anyone interested in attending the November 6th session who has not already confirmed their attendance. The seminar opens at 7:30 a.m. with breakfast, the informational sessions will start at 8:00 a.m. and the seminar will conclude by noon. Interested members need only call the Retirement System to register.

**If you have not already registered and are interested in attending the November session, simply call the Retirement System at 624-6506 and ask to be placed on the attendance roster for the “November Pre-Retirement Session”.**
