RE: Progress Report, Purchasing Division

Dear Committee Members:

Since your last meeting, the Purchasing Division has been busy with the following:

- The Purchasing Division's page on the City's website is up and running. We are looking for the cooperation of City departments to not only send us their bids, but the results so that we can keep this page up to date. Our vision is to have one central location for information on bids and RFP's for the entire City.
- Along with the web page is an e-mail notification system. Anytime a bid gets posted, vendors that subscribe are notified of new bid opportunities. Highway Department vendors were notified via a mailing (attached). Currently, there are 181 subscribers to that email.
- The Purchasing Division did put out a Cleaning/Janitorial Bid, however, decided to reject the bids due to conditions set forth by the vendors. We will continue to monitor and re-evaluate bidding these products in the future.
- Over the summer, we sent out several surveys and tried to set up meetings with Departments to see how we can best meet their needs, as well as let them know what was available to them. A few Departments did take the time to meet with us and out of those meetings came some suggestions that we are following up on. We have attached a summary of Departments that have responded.

4

- Current and upcoming bids:
 - September 18, 2007 accepting bids for the heating oil and fuels for Departments, formerly done by the Building Maintenance Division of the Highway Department.
 - Duplication/Copying services bid in final stages
 - Automotive parts will be going out in October. Typically these bids were specialized for the Highway Department; they have been revamped to include items from other Departments.
 - Winter bids: including snow hauling, salt and calcium chloride bids will be going out in late October. These bids have typically left it open for other departments to purchase off.
- The Purchasing Division has been working on a letterhead proposal, please see attached.

FUTURE PLANS

- We are in the beginning stages and working with Information Systems to obtain a city wide copy machine/maintenance contract.
- Continue to look at areas in which cost savings can be obtained through bulk purchasing, i.e. data destruction and printing services.

If you have further questions please let me know.

Respectfully Submitted,

Mindy Salomone-Abood

Chairman Garrity and Honorable Members:

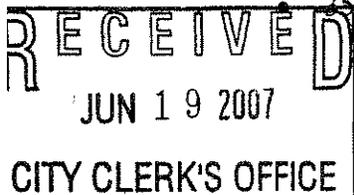

As you meet and have discussions about using Rooms and Meals tax money in the future for Storm Water Utility/Sidewalks/Streets, please consider these comments.

First, let me say that money is needed now and in my point of view should be started with first addressing our reserve fund ordinances that are in place. I do believe that at some point we might look at the revenue that will be in the Rooms and Meals tax, but remember we do have a tax rate stabilization account that we should consider and put money into that account. After all, when we built the civic center we said money would go back to the taxpayer after.

Before we rush into starting another fund, I believe that we need to review some of our ordinances. So, before we make another policy effecting rooms and meals revenue, some of these special ordinances should be changed to start putting money into a special account for storm water/sidewalks/streets this year.

The Finance Officer should review the following to see if they apply today and make recommendations to the Board regarding what changes he would suggest. One area that we should talk about is how much percent of the surplus should go into these accounts, and what they should be used for. An example that I would like to see is instead of putting 50% of the surplus into the Revenue Stabilization Account, how about 25% into this account and 25% into special storm water/sidewalks/streets. That way we can start doing something this year after the audit takes place for the 2007 budget. That's just one ordinance that might be changed. The reserve ordinances are as follows:

- 35.032 Revenue Stabilization Reserve Account (Ordinance passed 5-6-97)
- 35.033 Special Revenue Reserve Account (Ordinance passed 11-6-02)
- 35.034 Tax Rate Stabilization Reserve Account (Ordinance passed 11-6-02)
- 35.035 Risk Retention Reserve Account (Ordinance Passed 11-6-02)

The Committee on Administration voted on January 9, 2007, to table the request of Mayor Guinta to establish a Department of Administrative Services. The Committee requested, however, that you review the proposal for conflicts with local ordinances, the City charter, and the State Statutes and provide them with a summary of your assessment at their next meeting, tentatively scheduled for February 13, 2007 at 5:30 p.m. The information will need to be forwarded to the Office of the City Clerk no later than Wednesday, February 7, 2007 so that we may prepare the Committee agenda.

Re: Department of Administrative Services

Dear Members of the Board:

With the recent retirements of several department heads, and with an expectation of additional retirements in the coming years, I think it would be prudent at this time for the Board of Mayor & Aldermen to consider the establishment of a Department of Administrative Services. Such a department would be modeled after similar governmental agencies existing at the state and municipal levels throughout the country.

Ideally, the City would consolidate various departments into a Department of Administration consisting of numerous subdivisions. The creation of such a department would benefit city government in several ways. First, the creation of such a department would result in greater cost savings through the reduction in personnel, especially those at upper pay grades. Second, such a department would reduce the bureaucracy that frustrates consumers and employees alike. Third, by coordinating administrative services into one department, the city can achieve greater efficiencies in service. Fourth, the Board of Mayor & Aldermen can expect improved communication between itself and the proposed department.

At this time, I have no preconceived notion on what departments should be folded into such a department. We should consider all departments in our evaluation of this proposal in order to determine what makes the most sense and what is in the best interest of the average taxpayer. I look forward to having a vigorous discussion with the Board and hope that together we can reach a consensus opinion.

Respectfully Yours,

Frank C. Guinta

Re: Department of Administrative Services

Dear Members of the Committee:

Since suggesting the establishment of the above referenced department, I have had numerous discussions with government and community leaders on how to best approach this important issue. I believe we have a great opportunity to review the structure of the Executive Branch of the government of the City of Manchester and owe it to ourselves and to future leaders to provide a more reasonable and responsible governmental structure.

I therefore wish to make some initial recommendations to the Committee for its consideration. These recommendations represent only a starting point.

1. The establishment of a new ordinance to assist the Board of Mayor & Aldermen with the reorganization of the executive branch. Such an ordinance could be modeled after Chapter 21-G of the Statutes of the State of New Hampshire (attached) effective July 1, 1983. An ordinance similar to 21-G would help the Board to work within a proven structure that helped the State reduce the number of departments, providing a manageable structure of government for the chief executive.

If the Committee is so desirous, a motion to direct the City Solicitor to draft a reorganization ordinance modeled after 21-G would be in order.

2. Several Aldermen have asked me what type of structure and what departments I envision being consolidated into the proposed Department of Administrative Services. Although I have stated that I have no preconceived notion of what departments should be eventually consolidated into this department if it should be created, I think the Committee should consider the following departments as candidates:

- Finance
- Information Systems
- Human Resources

b

- Office of Tax Collection
- Office of the City Clerk
- Risk Management
- Central Purchasing/Central Fleet
- Facilities Management
- Office of the Assessors
- VISTA program
- Auditing

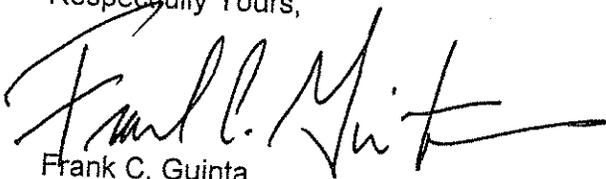

My selection of these departments is in no way an endorsement of the consolidation of any particular department. I believe the Board should consider these as well as other departments.

For your convenience, I have also attached organizational charts from two New England cities comparable to Manchester. These charts are intended only to educate this Board about how other municipalities have streamlined their administrative divisions to better meet the needs of their citizens and elected officials.

3. Timeline: While I have no definite timeline for the implementation of items #1 or #2 above, I will consider including a Department of Administrative Services as part of my FY2008 budget. However, I will only do so if the proposed department will yield immediate savings. Otherwise, I will wait for this committee to complete its work regarding this matter. I am also committed to consolidation through attrition; a process that I believe worked well when together we consolidated the Traffic Department.

As I stated to the Board in my original letter, I am willing to work with you to achieve a governmental structure that makes better sense for the needs of the City. I am also willing to meet not only with this Committee, but also with any city leader who wishes to participate in this discussion.

Respectfully Yours,

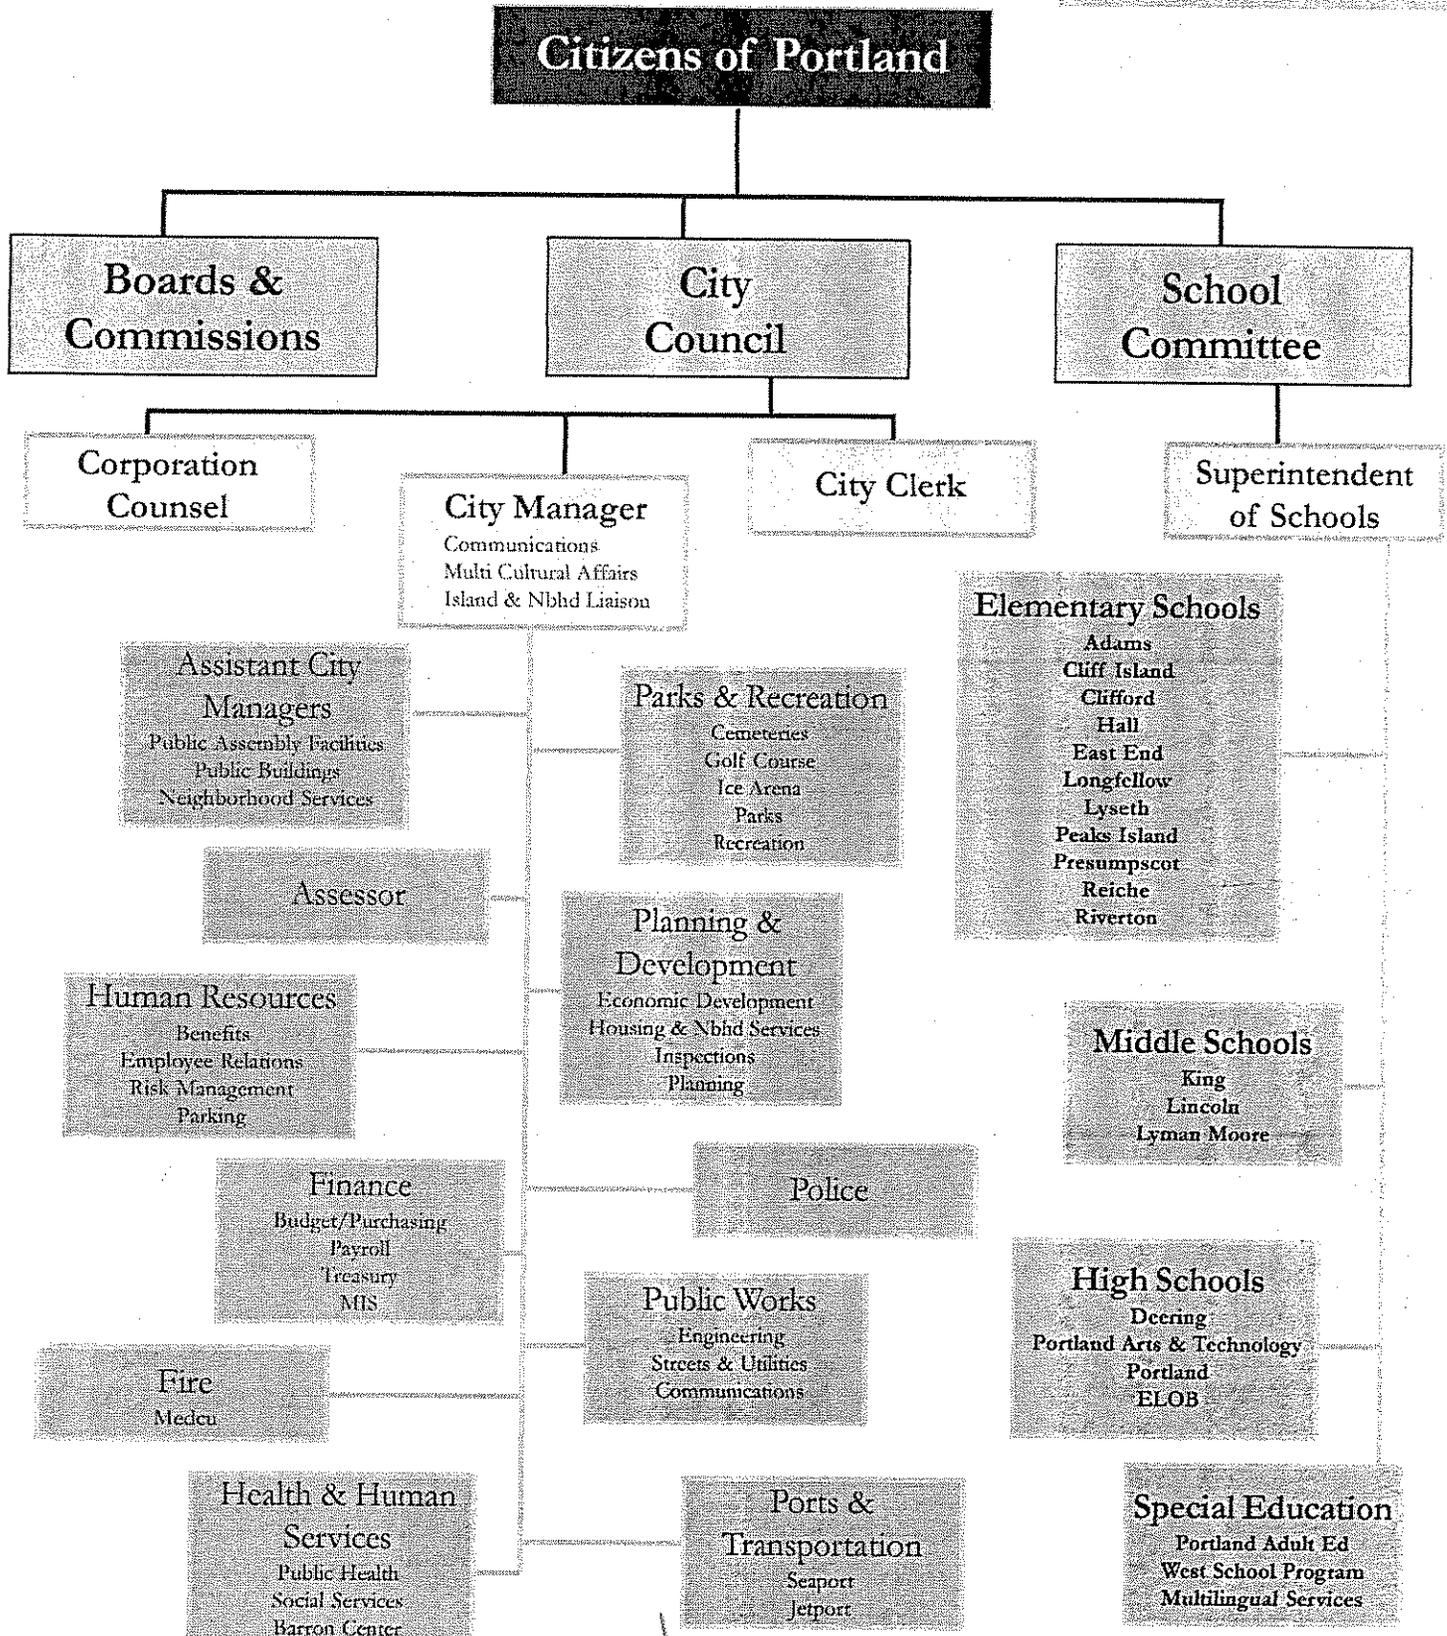

Frank C. Guinta
Mayor

TITLE I

THE STATE AND ITS GOVERNMENT

~~CHAPTER 21-G~~

ORGANIZATION OF EXECUTIVE BRANCH

Section 21-G:1

21-G:1 Short Title. – This chapter shall be known as the Executive Branch Reorganization Act of 1983.

Source. 1983, 372:1, ~~eff. July 1, 1983.~~

Section 21-G:2

21-G:2 Declaration of Findings. – The general court finds that:

I. The state constitution provides for the separation of powers within state government among the legislative, the executive and the judicial branches. The legislative branch has the broad objective and responsibility to determine policies and programs and to review and oversee program performance and implementation of policy previously established. The executive branch has the responsibility to implement and administer these policies and programs. The judicial branch has the responsibility to resolve disputes arising from the interpretation or application of the laws;

II. The growth of the executive branch from 32 constitutional offices and state agencies in 1900, to 96 in 1970, to more than 140 in 1983, has created an unwieldy and confusing state government structure. This structure has developed piecemeal, resulting in lack of policy coordination, excessive costs, inefficient use of personnel and capital, overlapping agency jurisdictions, duplication, and the ineffective use of the state's limited financial resources; and

III. The size and complexity of the executive branch, including the unnecessarily confusing current array of administrative terms, titles, and appointment processes, has unintentionally altered some of the constitutionally contemplated checks and balances by an unplanned shifting of policy direction and implementation toward the independent, non-elected executive branch agencies. This reduces the ability of the legislature to assert its primary role as policymaker and the ability of the governor to manage the implementation of that policy.

Section 21-G:3

21-G:3 Declaration of Policy. – The general court declares the following to be the policy and objectives of the state:

I. The organization of state government should assure its responsiveness to popular control, as expressed through the state's elected officials. It is the goal of reorganization to improve legislative policymaking capability and to improve the administrative capability of the executive to carry out these policies.

II. The organization of state government should facilitate communication between citizens and government. It is the goal of reorganization through coordination of related programs in function-oriented departments to improve public understanding of government programs and policies, by more

clearly defining the jurisdiction of departments, and to improve the relationships between citizens and administrative agencies.

III. The organization of state government should assure efficient, effective and responsive administration of the policies established by the legislature. It is the goal of reorganization to improve the coordination and management of state services by establishing clear lines of authority, responsibility and accountability for program implementation within the executive branch.

IV. The governor should meet regularly with the heads of all agencies. Communication and exchange of information and ideas among the agency heads, as well as between agency heads and the governor, should be the goal of these meetings.

Source. 1983, 372:1, eff. July 1, 1983.

Section 21-G:4

21-G:4 Guidelines for Reorganization. – The following provisions shall serve as general guidelines for accomplishing executive branch reorganization consistent with the policy and objectives of the state:

I. In order to allow the chief executive to efficiently and effectively implement legislative policy and programs, the governor should be provided with a manageable administrative structure and the authority to direct its operations.

II. The large number of existing executive branch agencies, departments, boards, commissions, authorities and institutions should be significantly reduced by consolidating them into a reasonable number of departments.

III. The consolidation of agencies in the executive branch should be on a functional basis, so that programs can be coordinated and comprehensive planning can be undertaken.

IV. Structural reorganization should be a continuing process through careful executive and legislative appraisal of the placement of proposed new programs, and the coordination of existing programs, in response to changing public needs.

V. There should be a uniform process for administrative appeals to an impartial body provided for each department established following July 1, 1983.

Source. 1983, 372:1, eff. July 1, 1983.

III. The commissioner may adopt such reasonable internal practices and procedures as may be necessary to carry out the duties of the department and its divisions consistent with this chapter.

IV. The commissioner may not accept, on behalf of the department, any grants of money without first obtaining the express consent of the legislative fiscal committee established by RSA 14:30-a.

I. The powers, duties, functions, responsibilities, programs and operations of each agency abolished pursuant to acts of the general court relative to executive branch reorganization shall, upon and after the date of each abolition, be exercised and performed by the commissioner of the department to which such powers, duties, functions and responsibilities are transferred.

II. The commissioner of each department shall have full authority, consistent with this chapter, to assign powers, duties, functions, responsibilities, programs and operations of abolished agencies to any division within the department, or may determine that any or all of them shall be exercised in such other manner as shall be allowed by law. The commissioner shall make such assignment or determination in accordance with the general functions of each division, as established by the general court.

III. Upon the abolition of each agency whose powers, duties, functions and responsibilities are transferred in accordance with this section, any pending or unfinished business of each such agency shall be taken over and be completed by the department to which transferred and its commissioner, with the same power and authority as that of the agency abolished. The department and its commissioner shall be the successor in every way to each such agency, and every act done by the department or its commissioner in the exercise of the functions of each shall be deemed to have the same force and effect under any provisions of the constitution and laws in effect on July 1, 1983, as if done by the agency abolished.

IV. Upon the abolition of each agency whose powers, duties, functions and responsibilities are transferred in accordance with this section, the existing rules of each agency shall continue in full effect, without interruption, as the rules of the department to which those powers, duties, functions and responsibilities have been transferred. Rules so continued shall be effective for the remainder of the period originally established under RSA 541-A:17, I.

Any advisory opinion concerning any person subject to the provisions of this subdivision who acted in reliance thereon, shall be binding upon the committee, and it shall be an absolute defense in any complaint brought under this subdivision that the person complained against acted in reliance upon such advisory opinion. The name of the person seeking an advisory opinion and any information in the opinion that would identify such person shall be non-public. A redacted version of the advisory opinion shall be public.

(d) Receive sworn complaints, investigate allegations of violations of this subdivision or guidelines adopted thereunder by executive branch officials and make appropriate findings of fact and conclusions with respect to such conduct.

Section 21-G:31

21-G:31 Complaints; Procedure. –

I. Each complaint shall be submitted in writing and signed under oath by the complainant. The sworn complaint shall be filed confidentially with the committee and shall contain the name and address of the complainant. Before any other action is taken by the committee, the executive branch official complained against shall be furnished with a copy of the complaint and a copy shall be sent to each member of the committee for review. The committee may initiate a complaint on its own motion against any individual the committee has reason to believe has violated any law, guideline, rule, or regulation within the committee's jurisdiction. The committee shall promptly examine each sworn complaint and:

(a) Upon first examination, if by a unanimous vote it determines that a complaint is frivolous, scurrilous, retaliatory in nature, or plainly not within the committee's jurisdiction, the committee may summarily discharge the complaint without further meeting or proceeding. The committee shall notify the respondent and complainant in writing of its action.

(b) For any complaint not summarily discharged, the committee shall conduct an initial review to ascertain whether the committee has jurisdiction to consider the complaint or whether the complaint is without merit or is unfounded. If the committee concludes by a recorded affirmative vote of no less than 5 members of the committee that the alleged conduct is not within the committee's jurisdiction, is without merit, or is unfounded, the committee shall dismiss the complaint and shall report such conclusion to the complainant and to the executive branch official, with an explanation of the basis of such determination.

II. If the committee, by recorded vote, concludes that the complaint is within its jurisdiction and may have merit, the committee may proceed to conduct a preliminary investigation. Upon completion of its preliminary investigation, the committee shall conclude by recorded vote that:

(a) No violation occurred and no further action is appropriate;

(b) The violation is inadvertent, technical, or of a *de minimis* nature and shall be addressed by informal methods; or

(c) There are reasonable grounds to believe a violation occurred and formal proceedings shall be instituted to inquire further into the complaint. In that event, the committee shall issue a formal statement of charges and proceed to a hearing on the complaint.

III. Upon completion of the hearing, the committee shall conclude by recorded vote that:

(a) No violation occurred and no further action is appropriate;

(b) No action is appropriate because there is not clear and convincing evidence that a violation occurred;

(c) Based upon clear and convincing evidence, a violation occurred, but such violation does not justify formal disciplinary action and shall be resolved by informal methods; or

(d) Based upon clear and convincing evidence, a violation occurred, and the violation was of a serious nature so as to warrant formal disciplinary action. In the case of a finding of violation by a executive branch official, the committee may recommend disciplinary action by the appropriate body, including but not limited to a recommendation for disciplinary action by the executive branch official's supervisor, removal from office under RSA 4:1, or, in the case of the governor, executive council member, or other officer of the state, impeachment or other appropriate action pursuant to part II, article 38 of the New Hampshire constitution. In addition to any recommendation for disciplinary action under this subparagraph, the committee may refer the case to the department of justice for criminal prosecution. In the event that conduct may constitute both a criminal act and misconduct subject to the jurisdiction of the committee, the committee may on its own motion or by motion of the attorney general suspend its investigation or a pending hearing for the time period reasonably necessary to avoid

compromising a criminal prosecution.

IV. Any person who knowingly or willfully swears falsely to a sworn complaint does so under penalty of perjury, and the committee may refer any such case to the department of justice for prosecution.

V. Except as otherwise provided in this paragraph and notwithstanding any other provision of law, all proceedings, information, communications, materials, papers, files, and transcripts, written or oral, received or developed by the committee in the course of its work, shall be confidential. The committee shall first examine any sworn complaint and shall conduct its initial review and preliminary investigation of complaints in a confidential manner, unless otherwise requested by the executive branch official complained against. The committee shall conduct formal proceedings, other than its deliberations, in public session. The committee's deliberations on complaints shall be conducted in nonpublic session. Upon completion of the preliminary investigation conducted under paragraph II or at the conclusion of formal proceedings under paragraph III, the committee shall make available for public inspection all records, other than its work product and internal memoranda relating to the complaint.

VI. In proceedings under this subdivision, the committee shall have the power to issue subpoenas and administer oaths.

VII. Any member of the committee who is directly or indirectly involved in any complaint before the committee or who otherwise has personal knowledge of facts material to the determination of the complaint shall not participate in any proceedings regarding the complaint. In the event that recusals under this paragraph reduce the number of participating members to fewer than 4, the remaining participating members shall designate an alternate or alternates sufficient to increase the committee to 4 members, to serve on the committee for that case only.

provided in RSA 21-G:31, III(d) and other applicable law.

Alderman Daniel P. O'Neil, Chairman
Committee on Administration and
Information Systems
City of Manchester
One City Hall Plaza
Manchester, New Hampshire 03101

Re: Department of Administrative Services

Dear Alderman O'Neil and Members of the Committee:

The City Clerk's Office has sent me a note indicating that your Committee would like me to provide you with a brief summary of my assessment of the how the proposed consolidation of services/departments would impact on department head positions and salaries.

As a matter of information, I am very familiar with RSA 21-G:3 to 35. In my former position with the State of New Hampshire, RSA 21-G was a major factor in classifying positions throughout State government along with the classification plan or what we call Yarger Decker.

If you will refer to Section 21-G:5 and Section 21-G:6, you will note that the Legislature defined the structure of government and then defined what type of position would be established to run the different levels within departments. Therefore, if we are following this premise for a Department of Administrative Services, the first order of business would be to create a new position called Commissioner of Administrative Services. It would be my opinion that this new position would be established minimally at a salary grade 31 (\$95,389 to \$136,002). The Commissioner would then need an Administrative Assistant III at a salary grade 14 (\$30,197 to \$43,054).

Underneath the Commissioner of Administrative Services, former departments would then be divisions pursuant to RSA 21-G:6. Divisions are headed by Directors. We currently have Directors heading our departments. The major difference between the current duties of the Directors and the proposed consolidation would be that there would be a layer between the Directors and the Mayor and Board of Aldermen. Division Directors would still need to develop budgets, manage budgets, run their unique programs, hire/fire, etc. etc. Therefore, it would not be realistic to assume that you could eliminate Directors and assign the same duties to lower level

6

employees. Further, if you decided to take certain duties away from the "new" directors or former department heads and give them to the new Commissioner, the new Commissioner would need staff to do those duties. Thus, you would need to create new positions for the Commissioner's Office.

The classification plan that the City adopted in 1999 would not provide for lower level positions to assume higher level duties and responsibilities and not be compensated accordingly. Further, when the State adopted RSA 21-G, former Commissioners and Directors' salaries were not reduced, the positions were just moved around on an organization chart and in some instances given new titles.

It is my understanding that the City once had a City Coordinator position. When that position was established what impact did that have on the salaries of Department Heads? When that position was eliminated, what impact did that have on the salaries of Department Heads?

I would be happy to share my knowledge regarding other issues with RSA 21-G with you if you would like to discuss them. For now, my responsibility was to provide you with my assessment of how a consolidation of departments would impact on department heads. I hope I have fulfilled that assignment.

Respectfully submitted,

Virginia A. Lamberton
Human Resources Director
